THANK YOU!!!

Grace, Gospel, Mercy, Compassion, Empathy, as well as the Law are critical and essential components of growing well-balanced, sound steward, future disciples!!! In other words, Jesus is absolutely necessary in the vocational educational process!! Without Jesus overtly brought to our young people, we leave their feet off the ground with no traction to move in any direction other than to tumble in whatever direction the winds of secular change blow. Our Lutheran schools bring Jesus to young people in our community. Other schools cannot and will not be overtly Jesus-centric. Martin Luther High School has been blessed with 40 years of ministry opportunities. Granted, we have had varied degrees of success, but even in our mishaps, seeds have been planted and we have faith in the fact that God's Word does not return void – Isaiah 55:11.

To this end we can only say **“Thank You”** to our Lutheran churches and the broader Christian community for the support over that time. 40 years of ministry to over 500 kids and their families is an enormous blessing! Thank You! At risk of being cliché, **our ministry is more important today, and in the future, because culture is backsliding at an exponential rate.** *If kids do not get an overt, rationally grounded foundation of Jesus taught and role modeled to them for significant amount of quality time, secular rationale will win out in their discernment.* We need your committed support for the foreseeable future! We want to continue to say “Thank You” for many years to come. This will take some real guts, courage, and faith! This is not about platitudes. This is about the Kingdom of Heaven (Jesus)! Our community (our kids) is (are) worthy and merits this ministry! “Thank You” in advance!

Amen – Come Lord Jesus!!! Gbye!
